

Series 386-100/337

Fine silver, crevice resistant

Series 386-100/337 is a cleavage-resistant fine silver. It can be tinted with MS high glaze colors of Series 386 (see color chart: article PM-2004). In addition, 10 percent by weight of Series 600-HDA or Series 600-HDS hardener can be added to increase chemical and mechanical resistance.

Specifications

Thinner	Series 300-017
Addition ratio	5-10 % by weight
Retarder	Series 300-018
Addition ratio	5-10 % by weight
Hardener	Series 600-HDA or Series 600-HDS
Addition ratio	10 % by weight
Accelerator	Series 300-019
Addition ratio	5-10 % by weight
Cleaner	Series 300-URS or Series 300-BRS
Mesh	77.55 – 120.34
Drying / Curing	Room temperature
Substrates	See technical data sheet Series 386
Further processing	See technical data sheet Series 386
Overprinting	Yes
Delivery conditions	1 kg, 5 kg, 25 kg
Shelf life	12 months
Others	Stir well before use.

Important information: Our technical advice, whether spoken, written, or through test trials, corresponds to our current knowledge to inform about our products and their use. This is not meant as an assurance for certain properties of the products nor their suitability for each application. You are, therefore, obliged to conduct your own tests with our supplied products to confirm their suitability for the desired process or purpose. The selection and testing of the ink for specific applications is exclusively your responsibility. Should, however, any liability claims arise, such claims shall be limited to the value of the goods delivered by us and utilized by you with respect to any and all damages not caused intentionally or by gross negligence.
