

Series 10-055

Universal Cleaner

Series 10-055 is a manual screen cleaner for intermediate or final cleaning of screen meshes or other utensils (spatulas, screen printing squeegees, etc.).

This universal cleaner removes screen and pad printing inks without leaving residues.

When cleaning, always remember that the cleaning rag very quickly becomes saturated with the removed ink, which means that the rag must be changed more frequently.

In addition, a well-ventilated environment should be ensured during cleaning.
